

## Biodegradable/Compostable 'Hot' Cups

These cups are composed of thick paper (made from plantation timber) & have a 100% biodegradable PLA coating.

The double wall cups are insulated and this minimises heat transference from the hot contents in the cup to the holder's hand, ensuring comfort & safety.

100% Biodegradable and Compostable.

Sold in Pack of 50 or by the Carton . Discounts apply to carton quantity purchases.
