

Pull-Up Drying Rack Kit Hang your washing out of the way!

Easy to use

Elegant all-timber construction carries a big load in a small space.
Easily handles larger items like sheets & doona covers.
Super smooth action.
Hoists effortlessly with high quality sailing rigging.

Convenient

Leave clothesline hassles outside! No rain and no fading from the sun.
Can be loaded at waist height and then hoisted to the ceiling, out of the way,
leaving you without the clutter of a regular drying rack.
Your washing will dry gently and speedily.

Solid & Durable

The rack is hand-crafted from long-lasting plantation hardwood (Sugar Gum from SMARTimbers), with through joints and the best quality steel fittings.
Six strong rungs take one full machine-load. Built to last.

Save Energy

A regular clothes dryer can cost you up to \$180.00 per year. You'll save on energy bills with the Pull-Up Drying Rack.
Hot air rises, so let the free hot air circulating around your ceilings do the work for you.

Installation:

Comes unassembled in kit form, complete with all rigging, fixings and easy instructions.
No special tools required, just a drill and a screwdriver.
